

Our holiday greeting is a Trolley you can make yourself. Here's how to do it.

- 1) Cut out Trolley along the heavy black line.
- 2) Fold up and down accordion style at the guidelines. Repeat on front side.
- 3) Fold back both sets of red flaps and attach tabs inside Trolley with tape or glue.
- 4) Make a pedestal by folding back the large white flaps the same way.

You can decorate Trolley any way you like. You might want to draw passengers or paste on photos of your family and friends. How would you personalize your Trolley?

Friends like you are special  
every season of the year
